

AGENT NEWS

Safeco announces Summer 2016 Make More Happen Awards

Independent insurance agents do more than provide expertise and guidance to their customers — most are business owners who also can play a vital role in building stronger communities.

Safeco partners with many agents who do exactly that, and we started the Make More Happen Awards to both recognize their contributions and support their volunteer and charitable efforts. Each year, Safeco invites agents to apply for the awards and then distributes hundreds of thousands of dollars in grants to nonprofit organizations across the country.

This summer, 33 agencies have been selected for a Make More Happen Award, and the nonprofits they support each will receive a \$4,000 donation from Safeco — amplifying the impact they already have on the community.

They'll also have an opportunity to win an additional \$1,000 when their stories are featured on Safeco.com, and you can help them do it. Just visit the site each week between now and the end of October to see two stories featuring these agents and nonprofits. Then, leave a comment, or "cheer," below — those that receive 50 or more while the story is live will earn the extra donation!

"We're proud to partner with such dedicated agents across the country, and we're pleased to recognize them for their selfless work," said Safeco® President Matt Nickerson. "It's an honor to support and encourage those who share our belief in the importance of community."
